Owen Johnson

185 South Street, Monroe, IN 46772 • (260) 517-8990• oij13@icloud.com

Computer Science student at Ball State University specializing in Web and Mobile App Development. Experienced with Java through academic projects and C#/.NET from an internship at Formula Boats in Summer 2025. Developed practical skills in .NET Blazor, Dev Ops, SQL Server Management Studio, and Dapper ORM. Driven to apply my technical abilities and real-world experience to create impactful software and contribute to collaborative teams.

Experience

MAY 2025 – AUGUST 2025
Software Engineering Intern | Thunderbird Products | Decatur, Indiana

Assisted in the framework migration of a sales quoting site by rebuilding the site from scratch using .NET Blazor. Daily functions included setting up connections to stored procedures using Dapper, building Server-Side web pages using Razor, and interacting with my team through Dev Ops. I allocated 75% of my time to this responsibility at Thunderbird Products.

MAY 2025 – AUGUST 2025
Bill of Material Cycle Counter | Thunderbird Products| Decatur, Indiana

Responsible for cycle counting backflushed inventory, reporting variances to management. Responsible for keeping part quantities on our ERP system accurately aligned with the counts on the floor. Thorough research was required to deduce, when a part was off, the root cause of the part's discrepancy. Thorough research was required to find out, when a part was off, the root cause of the parts discrepancies. I allocated 25% of my time to this responsibility at Thunderbird Products.
